July 27, 2014

Dear Friends and Colleagues,

On behalf of the International Association of Coroners & Medical Examiners, I would like to welcome you to the 2014 IAC&ME Training Conference, in Las Vegas. This is a very exciting year for the IAC&ME as it’s the first year we are hosting a four day basic Medicolegal death investigation course and our first annual forensic odontology workshop. We have committed to hold these two breakout sessions on an annual basis and are confident they will grow in years to come.

Due to the hard work of our Executive Board and many of our members, the IAC&ME has secured a seat at “the table” in nearly every federal working group that has been formed over the past 3-5 years, giving the IAC&ME an extremely significant voice at the national level. This year I had the honor to be appointed to the National Commission on Forensic Science, which further secures the IAC&ME’s position in the forensic science community. In 2014, the IAC&ME held it’s interim meeting at the American Academy of Forensic Science Meeting in Seattle, Washington. We feel this was very beneficial to the association and look forward to becoming more integrated in the Academy.

I, personally would like to thank the staff of the Clark County Office of the Coroner/ Medical Examiner and the hard work they’ve put into this event to make it such a success.

I hope everyone enjoys the conference, and our great city of Las Vegas, and most importantly, please do not forget to network with other attendees and thank the exhibitors for their support.

Respectfully,

John Fudenberg, D-ABMDI
IAC&ME President

Wednesday, July 30  
5:30 - 7:30 pm

Please join us poolside for light food, select bar, and some good old fun!
Many factors have contributed to these remarkable changes, but at the core of our continued success together is a strong commitment and collaboration between the leaders of Nevada Donor Network and the Clark County Office of the Coroner and Medical Examiner. This dedication led to the creation of a new position, the Nevada Donor Network Coroner Liaison, an OPO staff member who is integrated into the important work that takes place every day at the CCOCME.

“Two remarkable organizations who share a common goal; helping others give the gift of life so hope can rise up from grief and sorrow.” Dr. Michael Murphy, Clark County Coroner
